DISC CERTIFICATION WORKSHOP

DiSC® is a model of human behavior that helps people understand “why they do what they do.” The dimensions of **Dominance, influencing, Steadiness, and Conscientiousness** make up this model and interact with other factors to describe human behavior.

Originally created by Dr. William Marston, the DiSC model and its various assessment tools have helped over 35 million people in 20+ languages over the last 40 years.

You will be certified Professional Behavioral Analyst - CPBA

The DISC Profile is a nonjudgmental tool used for understanding behavioral types and personality styles. It helps people explore behavior across four primary dimensions:

- **Dominance:**
To the point, decisive and bottom line oriented. These people tend to be independent and results driven. They are strong-willed people who enjoy challenges, taking action, and immediate results.
- **Influence:**
Optimistic and outgoing. They tend to be highly social and outgoing. They prefer participating on teams, sharing thoughts, and entertaining and energizing others.
- **Steadiness:**
Empathetic & Cooperative. These people tend to be team players and are supportive and helpful to others. They prefer being behind the scene, working in consistent and predictable ways. They are often good listeners and avoid change and conflict
- **Conscientiousness:**
Concerned, Cautious & Correct. These people are often focused on details and quality. They plan ahead, constantly check for accuracy, and what to know "how" and "why".
